

# Subject index

## A

- acquiring datasets ..... 537–538
- `add, label define` option ..... 2
- `ado update` command ..... 130
- agreement, intraclass correlation ..... 260
- `alpha` command ..... 385
- alpha reliability ..... 381, 384
- `ameans` command ..... 98
- analysis of covariance ..... see ANCOVA
- analysis of variance ..... see ANOVA
- ANCOVA ..... 238–249
- ANOVA,
  - assumptions ..... 222
  - degrees of freedom ..... 227
  - effect size ..... 248–249
  - equal-variance test ..... 227
  - multiple comparison ..... 229
  - one-way ..... 221–222, 224
    - power analysis ..... 234–235, 263–265
  - power analysis .. 234–235, 263–270
  - repeated-measures ..... 255
    - power analysis ..... 267–269
  - two-way ..... 249–255
    - power analysis ..... 265–267
- `anova` command ..... 242
- arithmetic symbols ..... 66
- ATS at UCLA ..... 207
- auxiliary variables ..... 419–421

## B

- bar chart ..... 108, 355
- bar graph of means ..... 233
- Bartlett test of equal variances ..... 227
- beta weight ..... 213, 278
  - interpretation ..... 213
  - limitation ..... 315

- `beta, regress` option ..... 275
- binary variables ..... 299–300
- `binscatter` command ..... 201–205, 319
- block regression ..... 298–307
- blog ..... see Stata Blog
- Bonferroni multiple-comparison test ... ..... 210, 225
- `bonferroni, oneway` option ..... 225
- bookstore, Stata ..... 534
- bootstrap estimation of standard errors ..... 290
- bootstrap regression ..... 284
- Boston College Stata site ..... 532
- boundary characteristic curve ..... 519
- box plot ..... 118, 238
- `browse` command ..... 40, 80
- `by` command ..... 117

## C

- calculator ..... 229
- capitalization ..... 47–50
- case, changing ..... 50
- casewise deletion ..... 207
- categorical
  - covariates ..... 240, 244
  - predictors, regression ..... 300
  - variable ..... 307–308
- cause and effect ..... 199
- `center` command ..... 312
- centering ..... 323–324
  - quadratic model ..... 323–324
- chi-squared ..... 128
- table ..... 129
  - test ..... 127–132, 358
- `chi2power` command ..... 146
- `chitable` command ..... 129–131
- `clear` command ..... 11, 30

**clonevar** command ..... 65, 470  
**cls** command ..... 17  
**codebook** command .. 44–45, 53, 55–56,  
    138  
**codebook** example ..... 25–29  
**coding system** ..... 25–29  
**coefficient of variation** ..... 117  
**Cohen’s *d*** ..... 171–173, 180–187  
**Cohen’s *f*** ..... 234–235, 263  
**collect export** command ..... 89, 117  
**collinearity** ..... 294  
**command**  
    **ado update** ..... 130  
    **alpha** ..... 385  
    **ameans** ..... 98  
    **anova** ..... 242  
    **binsscatter** ..... 201–205, 319  
    **browse** ..... 40, 80  
    **by** ..... 117  
    **center** ..... 312  
    **chi2power** ..... 146  
    **chitable** ..... 129–131  
    **clear** ..... 11, 30  
    **clonevar** ..... 65, 470  
    **cls** ..... 17  
    **codebook** ... 44–45, 53, 55–56, 138  
    **collect export** ..... 89, 117  
    **compress** ..... 47–50  
    **correlate** ..... 208  
    **describe** ..... 10, 45–46, 53  
    **dfbeta** ..... 292–293  
    **display** ..... 171–173, 229, 352,  
        430–431  
    **drop** ..... 74  
    **edit** ..... 30  
    **egen** ..... 65, 70–73, 379  
    **egen count** ..... 379  
    **egen rowmean** ..... 73, 379  
    **egen rowmiss** ..... 71  
    **egenmore** ..... 70, 71  
    **esize** ..... 171–173  
    **estat esize** ..... 248–249  
    **estat report** ..... 502–503  
    **estat vif** ..... 294–295  
    **estimates store** ..... 358

**command, continued**  
    **etable** ..... 89  
    **factor** ..... 400  
    **fre** ..... 102–104  
    **ftable** ..... 131, 227  
    **generate** ..... 65–70  
    **glm** ..... 426–427  
    **graph bar** ..... 144–145, 233, 355  
    **graph box** ..... 238  
    **graph hbox** ..... 118  
    **gsem** ..... 411–440, 465  
    **hangroot** ..... 282  
    **help** ..... 6  
    **help label** ..... 43  
    **help notes** ..... 43  
    **histogram** ..... 13–18, 108–112, 281  
    **irt 1pl** ..... 502–503  
    **irt 2pl** ..... 509–510  
    **irt grm** ..... 517–518  
    **irtgraph icc** ..... 504, 511, 519  
    **irtgraph iif** ..... 505, 512, 520  
    **irtgraph tif** ..... 506, 514, 521  
    **kap** ..... 388  
    **keep** ..... 74  
    **kwallis** ..... 236–238  
    **label values** ..... 34–37, 64  
    **label variable** ..... 59  
    **list** ..... 82, 224  
    **listcoef** ..... 352–354  
    **logistic** ..... 347–351  
    **logit** ..... 340, 347–351, 425–427
